WILSON JUNIOR HIGH

"OUR SCHOOL"

Wilson Junior High School began its glorious history, September 1927. Our present Superintendent Dr. John M. Hickey was its first student president. The following inscription by Woodrow Wilson is found on the entrance to the school: "Our true wisdom is in our ideals; practical judgments shift from age to age, but principles abide." "Let us set for ourselves a standard so high that it will be a glory to live up to it and add a new laurel to the crown of America."

The program at Wilson offers excellent training in academic subjects, assemblies, clubs, guidance, health, arts, crafts, student cooperation in government, an excellent library, well organized intra-mural athletics and recreational activities.

The philosophy underlying our school is founded on the principle that boys and girls learn to do by doing in a school where a democratic program that meets the needs of high school boys and girls is offered. In its essence we hope that here at Wilson all those who have entered have found a real spirit of life, opportunity and lofty ideals.
